CAREER OBJECTIVE

I am a software and DevOps engineer, capable of working with a variety of technologies, software solutions, and managing databases. A valuable team member who has experience diagnosing problems and developing solutions. I'm always looking forward to a software development or DevOps position to use and develop my software development or DevOps skills and knowledge gained in employment.

KEY SKILLS AND COMPETENCIES

PROFESSIONAL ABILITIES

- Excellent software development knowledge, including programming languages, databases, operating systems (Linux-based environments), data structures, and algorithms.
- Strong Experienced in python, dart, JavaScript, typescript, Kotlin, and Java SE.
- Strong experience in native Android and Flutter framework development.
- Experienced with all phases of mobile app development from prototyping to publishing to the App Store or Google Play.
- Strong experience in MVC/MVVM design patterns.
- Experienced with all phases of websites development from designing to deploying.
- Good experience with HTML, CSS, JavaScript, bootstrap, jQuery.
- Experience in React/Nextjs frameworks.
- Experience in Odoo integrations with other systems and mobile applications.
- Good experience in writing unit tests and testable code.
- Excellent experience in RESTful APIs development and connecting mobile applications to back-end services and Google Firebase integration.
- Good Experience in developing microservices using Nodejs (Nestjs framework), Redis, Elasticsearch.
- Excellent experience in SQL databases (MySQL, PostgreSQL) and NoSQL databases (Mongodb).
- Knowledge of Docker and application deployment by using CI/CD.
- Excellent ability to learn and implement new concepts in programming and programming languages.
- Good experience in wireframing and UI design using Adobe XD.

PERSONAL ABILITIES

- Capable of working within specific timelines and deadlines.
- Ability to collaborate on work.
- Working in high pressure situations.
- Excellent communication skills.

CAREER HISTORY

FULL-TIME TECH LEAD AT SMART SOFRWARE (SAUDI ARABIA)
Jan 2022 – now
- Analysis project, define task and technologies.
- Develop website.
- Develop mobile application.

FULL-TIME TECH LEAD AT ETHRAA ALHAYAT (REMOTELLY)
Jan 2022 – now
- Analysis project, define task and technologies.
- Develop website.

FULL TIME SOFTWARE DEVELOPER AT EXPERT(SUDAN TEAM)
July 2019 – March 2021
- Develop mobile applications.
- Maintain and enhance existing mobile applications.
- Define and build secures RESTful APIs to connect Android applications and other clients to Odoo systems in addition to consuming these APIs.
